[DISPATCHES TO THE OREGONIAN]

EASTERN DATES TO APRIL 26

Congressional

In the Senate Mr Stuart from the Judiciary Committee reported the bill for the enforcement of the 15th amendment and the income bill and asked for the appointment of a committee of conference A committee was so appointed

The calendar was taken up and only the bills to which no objections were made were passed They included the bill consolidating statutes of the United States being a substitute for the House bill, also bill giving jurisdiction to the Courts of the United States in cases to which the State is a party, or where the execution of the revenue laws in a State may be taxed by the judicial order of process the bill to authorize the settlement of the accounts of officers of the army and navy was referred to the Judiciary Committee the bill to make importation of immigrants under labor contracts unlawful was referred to the Committee on Education and Labor A large number of private bills passed and the Senate adjourned.

In the House, a large number of bills were introduced, including one from Sargent for the relief of people of the United States by reducing the taxation which provides for a reduction after the 30th June of 15 per cent on internal taxes on import duties, except spirits and tobacco in all forms and abolishes the income tax on all special licenses, except for distilleries, brewers and tobacco manufacturers

A number of resolutions were offered upon which the House refused to second the previous question, and they went over

The morning hour having expired the question came up as to the members absent on a call of the House on Friday night

Mr Schenck offered a resolution for a call of the House

Mr Dixon moved to suspend so as to consider a substitute for the Senate bill to prevent the extermination of fur bearing animals of Alaska, lost lacking the necessary two thirds

Mr Logan, by unanimous consent introduced a joint resolution appointing Gen Giles A Smith, Juno Smith and Eli L Parker, a commission to procure an appropriate burial place for the remains of Gen Rawlings, and that the cost of the same be paid out of the contingent fund of the War Department Mr Cox suggested a modification so as to provide for a suitable monument over his grave Mr Logan modified it accordingly Voorhees remarked that the remains of Gen Rawlings were lying in a public vault in the graveyard in Washington The joint resolution, as modified, passed

WASHINGTON, April 25 —Mr Schenck notified the House that he would daily, after the reading of the journal, move the fining of all members not excused the sum of $10 each. The previous question was seconded by 109 to 22 Several members proffered excuses which were accepted

Mr Cullom moved to suspend the rules and adopt the resolution remitting all fines, lost.

WASHINGTON, April 26.—The Ways and Means Committee have agreed to some important amendments in the funding bill, the purport of which is unknown.

The Senate Committee on Military Affairs substantially agreed to all the provisions of Wilson s bill, excepting the provision as to the pay of officers On this subject, the Committee will probably recommend the adoption of the schedule of House bill with certain modifications.

The following nominations were made to day Commodore S. P Lee to be Rear Admiral Capt Enoch S Parrott to be Commander Wm F Spear to be Captain, Lieutenant Commander Edmund O Henry to be Commander, Lieutenant John McCown to be Lieutenant Commander

The bill for the enforcement of the 15th amendment, reported by the Senate, provides penalties of fine and imprisonment for the failure of an officer to allow negroes to perform any necessary act in the States or Territories under the laws The United States District Courts have exclusive jurisdiction in suits growing out of the amendment. The President is authorized to employ the land and naval forces or the militia to enforce its provisions

A delegation, consisting of Governors Merrill of Iowa, Butler, of Nebraska and Fairchild of Missouri strongly urge the importance of a free water channel to the Mississippi via the Fox and Wisconsin rivers.

The Army Bill

CHICAGO April 26 —Washington specials say the Senate Military Committee to-day finished the army bill, which is essentially the same as that introduced by Wilson some weeks ago, three or four sections of minor consequence only being added The pay section of the Senate and House bills are the same Logan s bill requires the President to discharge one Major General and two Brigadier Generals. Wilson s bill fixes the number of both grades permanently the same as Logan s does that allows the number to be reduced by death or resignation Wilson s bill reduces the army after next January to 25 000 men Logan's does not propose any reduction Logan gets rid of supernumerary officers below the rank of Brigadier General by muster out on recommendation by a board of examining officers, while Wilson's bill increases the retired list and allows the President to muster out on application with from one to two years pay The chief points of difference are those relating to decreasing minor officers Both bills provide that the offices of General and Lieutenant General shall cease with the present incumbents Wilson s bill retains the present pay of soldiers to June 1871

Mr Dawes a Witness —His Whole Testimony

The opposition press which refuses to credit anything which a Radical may say about the public debt and the successful financial policy of the present Administration nevertheless considers Mr Dawes a Republican Congressman from Massachusetts a first rate authority Our Democratic contemporary has therefore been filling his columns during the past week with speeches delivered by Mr Dawes some months ago, in which the estimates of some of the Departments were very sharply criticised An attempt is made to show that Mr Dawes arraigned the Administration as frightfully extravagant and unworthy of confidence and that he characterized all its professions of economy as shams and falsehoods Nothing however could be at greater variance with fact The speeches of Mr Dawes merely went to show that the estimates in some of the Departments were too high, and they have since been greatly reduced Mr Dawes himself committed some errors which were pointed out and corrected But his criticisms were not made in a spirit of hostility to the Administration, as the opposition press would try to make the public believe In a speech which he delivered in behalf of the Republican party in New Hampshire some weeks after the delivery of his speeches on the estimates in Congress, he thus explained his position and the nature of those criticisms which have been affording the opposition press so much comfort and delight

Now what is the promise for the future? What is the prospect on the question of public expenditures for next year? Upon that point I propose to speak plainly,—as you can find I have spoken plainly elsewhere. It is true that the Bureau officers of the several Departments—and bye-the-bye more than half of them have been inherited from the last Administration—in making their appropriations for the next year, asked too much When these appropriations came to be all aggregated, to be sent to the House, the whole amount was alarmingly too much and I took the liberty to tell the men responsible for it that it was too much, *and gentlemen, if you want any assurance for the coming year, or for the remaining years of this administration, as in this very year, that there will be no tendency upward, but rather downward you will find it in the unanimity in the Executive branch of the Government and in Congress in cutting down the appropriations for the year There is no division* I was charged yesterday afternoon by the President himself with this message to the people of New Hampshire, when I told him I was coming here. He told me to assure the people of New Hampshire that this exhibit I have here made of the successful collection and economical expenditure of the public money during the present year is an earnest of a pledge of what it shall be in the year to come

Following is the exhibit which was here alluded to, and which was made by Mr Dawes in a preceding portion of his speech

How is it now, fellow citizens, with the Republican party? Have they no claims to honesty and economy in the public affairs? I can show the account of their work up to this day I took from the Treasury books yesterday, and I state it to you just as it is in contrast with what I told you of the last year of Andrew Johnson who spent all the treasure and all the revenues of the land, and run the nation into debt, adding to the $2,500,000,000, under which it is groaning to-day $5,000,000 more. During the last year, Mr Johnson received $368,000,000 and he incurred a debt in addition of $6,000,000, so that he expended $374,000,000. In the first year of Gen Grant's administration, with no higher rate of taxation, but on the other hand, with reduced taxation in some particulars, he has gathered into the Treasury from his officials' hands, $394,000,000 (instead of $368,000,000) from the same taxes, but, instead of spending all they in the current year of this first year, *he has paid* $80,000,000 *of the public debt out of it*. [Great applause.] So that he has expended only $314,000,000 against $374,000,000 spent in the last year of Andrew Johnson's administration, making just a difference of $60,000,000. This is from the books. He has collected $26,000,000 more for this present year than Andrew Johnson did in his last year, and $20,000,000 of that is from the internal taxes of the land, which were not a mill higher, and on some articles were lower than last year Why has he collected $20,000,000 more? Because there has been less stolen. [Laughter and applause.]

Now as the *Herald* considers Mr Dawes an authority, and as it has been publishing many columns of his older speeches, will it do its readers the favor to publish these two brief extracts from a later speech of his which we have given here? Let it be candid and honest enough to give the whole testimony of its own witness It has introduced Mr Dawes as a witness, and is therefore estopped from denying the credibility of these statements from him, which we have given in these extracts. And while we have the *Herald's* witness on the stand we may as well let him speak as to the reputation of the Democratic party for economical management In the same speech from which we have just been quoting Mr Dawes said

When did the Democratic party ever have any reputation for economy in public affairs? Take its history.—Go back to Mr Pierce's Administration, in a time of profound peace With no occasion for any extra expenditure of public money, and how did he leave it? With an addition of some $12,000,000 to the debt of the nation. And what did President Buchanan do? He added the sum of $70,000,000 more to the debt In a time of profound peace, with prosperity in the land, revenue increasing and overflowing, he added $70,000,000 to the $12,000,000 of debt that existed at the end of Mr Pierce's Administration, and the very last year of it, with all the revenues of the country on a war basis to meet and liquidate the public debt, with every obligation upon the administration of public affairs that could be brought to bear, in the burden that rested upon the people, in the patriotic sacrifices the people were making to meet the exigencies of the Government. The very last year of Andrew Johnson's Administration he added to instead of paying a dollar of the public debt He added $6,000,000 to it.

So much for Mr Dawes Let us now turn to another authority which is high in favor with the Democratic party, because of criticisms which have occasionally emanated from it to show how, in certain particulars, the financial management of the country could be improved. Great delight has the opposition press taken in some of the statements of Mr David A. Wells, Special Commissioner of Revenue; and it has republished and distorted them so as to make them appear like an arraignment of the financial policy of the Administration. Will the *Herald* be obliging enough to insert in its columns the following statement from the last report of Commissioner Wells, relative to the reduction of the public debt

On the 1st of September 1865, the amount of the public debt, then at its maximum was, less cash in the treasury, $2 757,689,571 43 At the commencement of the present fiscal year, July 1 1869, the amount of the public debt, less cash and sinking fund in the treasury was $2 489 002 480 58 showing a reduction to that date of $268 687,090 85 Within the same period, taxes which if continued to the present time would have yielded in the aggregate upwards of $200 000 000 per annum have also been abated or relinquished To find a parallel to such results, the financial history of other nations will be searched to no purpose

The amount of the public debt on the 1st of December, 1869 less cash and sinking fund in the treasury, was $2 453 559 735 23, making a total reduction since the 1st of September 1865 of $304,129 836 20 and for the current calendar year, of $37 147 466 02

These statements from the highest official sources show the condition of the debt and finances and are an unimpeachable answer to all attacks upon the economy of the Administration. Let our Democratic contemporary publish the whole truth Let it not again commit the blunder of supposing Mr Dawes' criticisms on the estimates of some of the Departments to be an attack on the economy and financial integrity of the present Administration

Coming to the Point

Let us see if we cannot bring the Albany *Democrat* to the point on this repudiation question That paper insists that the platform [illegible] for the repudiation of [illegible] debt [illegible] strikes at Kelly Slater [illegible] the *Herald* and the *Eclipse* [illegible] utterances in favor of repudiation [illegible] is that they recant abandon the position they have taken put themselves on the platform and remain there Thus it holds that while the champions of the party are demanding the repudiation of more or less of the public debt the platform demands no such thing and that Kelly Slater and the *Herald* can find in the platform no warrant for their position

Thus far as to the position of the *Democrat* We now turn to the platform itself That document declares that the amount of the bonded debt was increased more than two fold by the *venal, illegal* and *unjust public* terms of its contraction Further it is declared that there should be an equitable adjustment Now will the *Democrat* state how a debt that was contracted in the manner asserted by the platform could be "equitably adjusted" without paring off a portion of it cutting it down, and repudiating the part (more than half) that is said to have been added to it by venal illegal and unjustifiable means Either the platform asserts what is false when it states that the debt was increased more than two fold in this manner or equitable adjustment means repudiation of more than half the debt, as asserted by Kelly, Slater and the *Herald*

We have the platform for it that the amount of the debt was more than doubled by the fraud employed in its contraction, and that as it was created in this way it should be "equitably adjusted" Come now, *Democrat*, and tell us how, if this statement as to the manner of its contraction be true it could be adjusted *equitably* without cutting off or repudiating the larger part of it? What other way could there be? Come! Let us have an answer The *Herald* has you here

Editorial Notes

Commissioner Delano has forbidden the publication of the income tax lists in future This, however, will not prevent the public from inspecting the lists The Commissioner says that the practice of publishing them, which has been carried on heretofore is in many respects objectionable and offensive and as no good end is subserved by the publication it ought to be discontinued

The *Herald* meekly submits to the chastisement administered by the Albany *Democrat* Fearing that the candidate for State Printer may lose votes if any reply is made to the vigorous attack of the Albany paper, the *Herald* smothers its resentment and forbears to reiterate its arguments for repudiation It is more than probable that the *Democrat* has silenced the *Herald* on this subject for the remainder of the campaign Not, of course, that the *Herald* has given up any of its views on repudiation which its Albany rival has so strongly combatted, but then you know it will not do for the candidate for State Printer to throw away any chance of obtaining votes

Referring to the statements of those who assert that colored men have no right to vote in the absence of an act to enforce the suffrage amendment, the San Francisco *Bulletin* says "It is preposterous to claim that any legislation, either State or Federal, is requisite to give effect to a constitutional provision which is itself supreme over and a guide to such legislation" This is well stated The most that any legislation on this subject could do would be to provide penalties for those who obstruct the Constitution by depriving any class of citizens of their right to vote It would be upon the same principle with legislation to punish those who obstruct the operations of the Constitution in any other way whatsoever

Who could have supposed it! Now comes the Democratic organ courting the colored vote! It tells the colored people that the Republican party has given them right of suffrage in the hope of obtaining their votes, advises them to be disgusted with such a proceeding to "spurn contemptuously this 'insult to the judgment and manhood of the colored people, —not "niggers" mind you! —and hints that they ought "to prove themselves worthy of the ballot" by going back on the Republicans, voting the Democratic ticket, and releasing themselves from "a partisan bondage more odious than their former servitude!" Think of the *Herald* appealing in honied phrase to the "judgment and manhood of the colored people" in the hope of getting them to vote with its party' To adopt for once the language of Brick Pomeroy, here we have the spectacle of men "chasing a wagon a little faster than they can possibly run in the hope of stealing a ride by climbing in over the tailboard

POLITICAL NOTES

A member of the Maryland House of Delegates declared lately that he would never vote to strike the word white from anything as long as he lived

The Kentucky Legislature has killed a bill for the registration of births, marriages and deaths and one of the Democratic papers of the State mourns the lack of an enlightened public spirit thus manifested

Both branches of the Legislature of Iowa have passed a resolution for a woman's suffrage amendment to the State Constitution It must be agreed to by the next Legislature and ratified by the people in 1872 before it can be of effect

A Georgian who expresses the opinion that Alex H Stevens would like to return to public life tells him that the opportunity which he had up to the close of the war of becoming the greatest and best loved man in the country the apostle of peace has passed

The Savannah (Ga) *Republican* laboring under the impression that the entire Yankee nation turns pale and starts back with afright at the very mention of the name of Robert Toombs wishes him dragged forth from his obscurity and sent out to meet and vanquish the cohorts of Radicalism

The cordial response of the Democrats of the National House of Representatives to the joint resolution in reference to the death of Gen George H Thomas is a sharp reproof to the Democracy of Ohio where a similar movement was laid over in the legislature on account of objections from the Democrats

The Chicago *Times* tries to commend itself to the confidence of its party by quibbling about the mode of ratification of the XVth Amendment while it confesses that impartial suffrage is "a just principle" and congratulates itself upon having given the principle its support in the face of much fierce party opposition

The New York *Times* speaking of the Connecticut election, says Under the circumstances there is very little significance involved in the result of the canvass, it being evident that with fair weather the result would have been different Connecticut is an ancient Democratic stronghold and it is only since the rebellion made Democracy odious that its people have been shamed into Republicanism Even now Democracy has too small a margin to justify any great jubilation, or to afford any enduring guarantee of future success

The income tax lists hereafter at the desire of Mr Delano, will be kept out of the newspapers Young bachelors looking for an eligible match will then be prevented from finding out how much the fathers of eligible young ladies are worth, and young spinsters engaged in the same laudable pursuit will find similar difficulties thrown in their way And those individuals who lived on the prestige of a huge figure in the list opposite their names, and paid heavy taxes for the privilege of being thought rich, will find themselves deprived of that deceptive glory

A majority of the interior journals of California lately contain articles congratulating their readers on the adjournment of the Legislature There is a general concurrence in the opinion that it was the most incapable and reckless which ever assembled in the State The people are congratulated upon having anything left, and one paper, the San Mateo *Gazette*, considers it exceedingly fortunate that the Capitol was not swapped off for stock in the San Mateo Tannery Company The Legislature finds no defenders, except in such partisan journals as have derived benefit from special acts, like the Litigant and State Organ Acts, while some of the most ultra Democratic sheets condemn these measures as being both impolitic on party grounds and unjust to the country press

A New York City dispatch says that one of the State Senators from that city is endeavoring to carry a bill through the Legislature to make the Fifteenth Amendment operative in the State of New York, and that many Democrats have promised to support this measure on the ground that it will convince the majority of the negro voters that their best friends are among the Democrats This is nonsense. The Amendment is already "operative" in the State of New York, as in every other State, anything in their Constitution or laws to the contrary notwithstanding It would be sensible, however, for the Legislature to amend the State laws so as to make them harmonize with the Constitution of the United States, which is the supreme law of the land

CURRENT NOTES

It is reported that Ex President Johnson is about to go to Europe to be absent six months

Hon Geo W Buck, President of the Waverly National Bank, the Elmira *Advertiser* says, has received a proposition from the burglars offering to return his bonds stolen at the time of the bank robbery on receipt of forty cents on the dollar The proposition comes from New York

Portsmouth, N H, has a restaurant where one can obtain a piece of beef or fowl cooked in a tin kitchen before a wood fire, bread baked in a pan covered with hot coals and anything else requisite for a substantial meal cooked in the style of fifty and more years ago And Portsmouth boasts of it

They have queer ideas of fun out in Illinois For example the other evening a set of funny fellows entered a lodge of Good Templars while that body was in session and seating themselves at the secretary's table, played a game of euchre to decide who should pay for a bottle of gin which they had with them

A Toronto paper frantically demands that a reward of $10 000 be offered for Riel's head "dead or alive" In order that "the seeds of discontent may be sown among his ranks, and to place him before the world in his true light—that of a murderer for whom justice demands the only reparation he can give"

Shining by reflected light, a country paper illustrates a point by saying that "As the shadow of the sun is largest when its beams are lowest, so we are always least when we try to make ourselves the greatest" This is doubtless very "pretty" and all that before you come to think of it but how can the sun cast a shadow at any time

A physician riding in a Boston street car one day last week gave up his seat to an elderly lady, although she insisted she was not quite so old as he thought—only! And on further inquiry he found that she, Mrs Hannah Clark, the only daughter of Lieut Rollins of Bunker Hill fame is living frugally in Boston at the age of ninety six, on an income of $43 the United States Government allowing her an annual pension of $48 which it costs $5 to collect in Boston

Late London and Liverpool commercial newspapers show that a large number of steamers are constantly advertised for ports in India China and Japan via the Suez canal The demand for steamers since the opening of the Suez canal has caused an advance in the prices of suitable vessels in England and 15 per cent additional premium is easily obtainable for such steamships over last year's prices and the shipyards of the Clyde are now building several steamers of 2 000 tons and upwards of a construction especially adapted to this trade

The Raleigh *Standard*, North Carolina says that many of the negroes who have recently gone South from Virginia and North Carolina have been cheated and deceived by agents who after making up a train of emigrants promising them $20 a month with houses and food, leave them in the lurch before the party reaches its destination and then the whole crowd is turned off the cars at the depot whither they were journeying among strangers houseless moneyless and without food In this condition bargains are made with them by Southern planters for almost nothing leaving them in debt and doomed to work among strangers in a strange land

It appears from a recent engineer's report that Duluth the Eastern terminus of the Northern Pacific Railroad, is situated at the extreme west end of Lake Superior in Minnesota that the coast is open with no natural harbor that the lake there is sometimes closed with ice until June that the nearest natural harbor is at the St Louis river seven miles from Duluth and the report concludes with the suggestion that the mouth of the St Louis be made the terminus of the railway If it be true that Lake Superior is closed with ice so late in the season the chances are that the Northern Pacific Road will ultimately find its real eastern terminus at Chicago

PACIFIC UNIVERSITY.—A very finely printed Catalogue of the Pacific University and Tuala in Academy of Forest Grove for 1869 70, bearing the imprint of A G Walling has been laid upon our table This institution has a full faculty, and the Catalogue presents a number of names which is very encouraging to the friends of education. We quote from this work the following remarks

The Institution is under no denominational control or supervision Its aim is purely educational. This implies Christian training and instruction. It proposes to furnish the facilities for Collegiate education which are desirable in any State, but which seem more imperatively necessary in this region, remote from older institutions of other States. While, however, the same general objects are aimed at, it is not in the spirit of servile imitation. Every College should embody clear ideas and have an individual character Science, not less than morals and politics, is interested, that this design be adhered to They both need correct thinkers and well grounded men of action Great practical questions convulse society Speculation threatens to displace science, and theories crowd into the ranks of knowledge This is no time to give up the profounder culture of the past It should rather be perfected We cannot, therefore, neglect Linguistic, Historical, and Philosophical study they are too important elements of such a culture. And yet, together with them, and in consistency with the general aim, not only the pure and mixed sciences may be employed as a discipline, but far more attention may be given to the vast field of modern scientific observation than has been general, in our Colleges

COMING.—A stream of immigration has commenced to pour into Oregon We hope it will continue unabated. The last steamer brought twenty-two families. The arrival of a steamer now is something different from what it was in the days of a golden excitement It is said that old birds cannot be caught by chaff, true, it is the wheat and grain without chaff which is bringing us this desirable accession to our population. The passenger of 1870 to Oregon bears a quite different appearance from the passenger of 1861 to 1864. Then the stream was almost exclusively of men, in woolen shirts, and the outfit was a pack horse and supplies for the mountains. Now we rejoice to see men coming with their wives and little ones, and pursue their course to the valleys, where homes may be obtained for them at a very small outlay to begin with We understand that many improvements are under way in many parts of Oregon this day by men who not more than two months ago were back in "the States" making up their minds to come here Some of these parties are the same, no doubt, who were so anxious to learn more of this region through the Labor Exchange, or who sought out Mr. Dufur, Dr. Loryea, Mr. John Nation, and others, who have been East lately, and report the ... with which information of this State is asked. May each new arrival be the means of influencing others to follow after. We are anticipating wonderful results from the internal immigration now so auspiciously commenced.

A VALUABLE RELIC.—Mr. John Martin, who returned on the *Ajax* last Friday after a tour of "the States" since leaving here on the 23rd of ..., brought a relic of great times to Mr. ... It is a cane, which was carried by Mr. ...'s father, and is therefore doubly prized as a family keepsake. This cane was made from a stick of oak taken from the famous old Sugar House, which stood for so many years in Liberty street, New York City, adjacent to the old Dutch Church, which has been the Postoffice of New York for years past. In looking at that walking-stick, and realising the authenticity of its origin, our mind involuntarily turned back to those most interesting pages in the *World's* history, in contemplation of the fact that here, on the western confines of America, on the shore of the Pacific, in such a day as this, we should pick up a stick of the building which Lord Howe converted into a place for our illustrious forefathers in 1777. The old Sugar House was built in 1689, and as it was a large six story building, did its part well in the refining of sugar until the more ... Lord Howe took it for the purpose above ... It and the old Dutch Church, where the British kept their dragoon horses in those days, ... to be commemorated in the history of the United States, and we confess to a feeling of ... and mingled regret, that so little mention ... is made in books which are accessible to ...

... The *Ajax* sailed last evening for San ... with her usual complement of passengers. The following is the list: J C Cooley and wife, Jos Weiss, Isaac Kaufman, Miss Howard and ..., S L Whipple, S H Sheplar, J Stearns, W W Morland, C L Cason, W J Callingham, D Van Winkle, R Poppleston, Rev John W Selwood and wife, Bishop Morris, Miss Tryon, Miss F ..., E O Graves, J W Whipley, Mrs L Verry, Rev W Sisy, Rev C R Bonnell and wife, Miss Brick, Mrs D Logan, N Baum, Dennis Tyron, E Frank, D W Thorp, T L Witten, D Simon, Jas Brown, Mrs Westenholt, W H Leininger, Mrs ..., Col West, J A Shields, W F & Co.'s ..., and nine in the steerage.

... DAYS.—The cool shades of the forest ... of the feathered tribes, the ... is now in harmony with man's ... for the beautiful summer has commenced ... Already arrangements are being made, and various societies are looking forward to their May Day festivals. Some have taken the preliminary steps for these annual occasions and we understand that both the cars of the Oregon and California Railroad, and steamers of the various ... in this city, will be sought for excursions soon to come off. There is no limit to the number of places where the delights of pic nic parties may be enjoyed undisturbed.

THE ARGENTINE REPUBLIC.—Parties who contemplate a trip there will be interested to know that the Argentine Republic, according to the census recently taken, has a population of 1,-812,110 souls—a proportion of 3 inhabitants to each square mile of inhabitable territory, or 1½ to each square mile of the entire area of the Republic, including the Grand Chaco, the Pampas and Patagonia. Besides the city of Buenos Ayres, which contains 177,380 inhabitants, there are only four cities which have more than 10 000 inhabitants, viz: Cordova, Rosario, Tucuman and Santa Fe.

REAL ESTATE OPERATIONS.—The following are the real estate transfers since the last publication:

John H. Couch and wife, and G. H Flanders and wife to Abby McNeal, lots 1, 2, 3 and 4 in block 121, Couch's addition—$400

Jacob Wills and wife to E P Wright, a piece of land containing five acres, situated in section 32, township 1, south range 1 east; also lots 1, 2, 7 and 8, in block 1, in the town of Willburgh—$100.

Finice Caruthers to R Glisan, blocks 4 and 8 in Caruthers' addition

CHOICE PHOTOGRAPHY.—Mr Poldeman, at his gallery on Washington street, has lately turned out a life-size photograph of Mr George Hoefer, which has been retouched, and is a picture much admired. The background represents the wild ... of a cascade retreat, and Mr Hoefer, sitting beneath the shade of a large tree with his zither in his hands, almost so natural as to be heard There is but one thing lacking to make the picture seem real and that is his pipe, which Hoefer has perhaps laid down on a log near by and it has rolled out of sight.

PLAZA CONCERT.—The 23d Infantry Band, at 3:30 P. M. to-day, will discourse the following programme at the plaza

1. Dupler Schanzen March
2. The Lillian Polka.
3. Duette from Norma, Mira O Norma, *Bellini*
4. Quadrille on English Airs *D Albert*
5. Love Among the Roses
6. Spring Waltz
7. Glee—Now at Moonlight's Fairy H ur
8. The Wearing of the Green

POOR BUT WORTHY.—How often we hear this expression in the community when by accident a man's name is brought before the public Is it a ... to be poor, that we should make use of the words, "poor but worthy?" If a man be rich, ... matters not with some people whether he is worthy or unworthy, for the reason we suppose, if a man be deemed rich it is not necessary to prove his worth. Which one will be found worthy when the great day of settlement comes, is a question easily answered.

CONTRACT FOR TIES.—Messrs. Smith & Delaney, of Clackamas county, yesterday closed a contract with the Oregon and California Railroad Company in this city for 20,000 ties, to be delivered along the line of the railroad above Molalla river, ... to the terms proposed by the Company for receiving bids.

FORCING SUITS.—There is such a thing known to the courts as involuntary bankruptcy and not only in that, but in other matters, suits are sometimes forced in these latter days An instance in point, to illustrate this position may briefly be stated in reference to the climate The thermometer has for two days ranged at about 82 and this has forced men who would be comfortable in to linen suits Whether the advocates of coarser fabrics intend to move for a new trial or abide the decision remains to be seen

JUSTICE COURTS.—All the Justice Courts of this city were busy yesterday Justice Bull and Justice Work were investigating civil actions for the recovery of money Justice Waterman was listening to an action brought by a poor laborer for the recovery of his chest of tools and blankets, which were held for a board bill which had accumulated up on him while sick Justice Anderson was holding his usual levee at the Police Court Justice Bull has now a very neat office on Stark street

BAD COIN.—The Walla Walla *Statesman* says Our attention has been called to the fact that there is a considerable quantity of bogus ten dollar gold pieces now in circulation in this valley The coin pieces have been sawed open in the centre a large portion of the pure metal extracted, the cavity filled with lead, and the coin put together again This spurious coin can easily be detected by the leaden sound produced when thrown down

U S DISTRICT COURT. DEADY J April 26, 1870.—*In re Tom Martin*, in bankruptcy on application of petitioning debtor an order for writ of injunction to stay sale of property allowed Mitchell for debtor

D. H Hildburg *et al vs Oriflamme* N P T Co claimant Libel for injury to cask of spirits. Evidence heard and argument postponed until to morrow

REAL ESTATE.—Mrs Eloisa Harvey has succeeded in purchasing the lot adjacent to her recent purchase on Park street, between Alder and Washington streets The last lot has cost $1 350, making the entire cost of the place, with all improvements, but a trifle over $8,000 This sale, as well as the first, was negotiated through the agency of Mr Wm. Davidson

COOPERAGE.—Parties who deem it an advantage to dampen dried apples slightly when packing them to get a good supply into the half barrels, should know that the practice is damaging The *fruit is so badly swelled by it when it reaches this* city that it is not fit to ship until a cooper is employed to rehead the kegs A lot was "coopered" on the wharf yesterday.

CLOSING UP.—The estate of E McQuillan has been taken charge of by U S Marshal Young and will go through bankruptcy upon the petition of his creditors The same action has been taken in the estate of S Coffin, of Yamhill county A meeting of the creditors in both cases will be held in this city on the 19th proximo, at the Court of Bankruptcy

SPARK CATCHER.—Capt Freedman has manufactured one of the Wand & Davis spark catchers, which has been attached to the smoke-stack of the *Fannie Troup* It gives satisfaction We have heretofore described this patent, which is of Webfoot origin It is one of the most useful inventions for steamers, mills foundries, etc, yet made

FINE PICTURE.—Lovers of art can find a copy of rare production of Rosa Bonheur, "Spanish muleteers crossing the Pyrenees," at the office of Dr J R Cardwell. The paintings of this gifted lady have never had an equal, in her specialty of representing *life*, and in the production here referred to she seems to have excelled all former efforts.

EAGLE CLIFF SALMON.—*Messrs Cook & Hume* shipped 100 cases of canned salmon last evening by the *Ajax*, for the epicureans of California who have been feasting their stomachs for years on Oregon oysters, and other dainties which we send them, and now wish something more to appreciate

ARRIVED.—C E B Howe, Past Grand Prophet of the Independent Order of Red Men, U S, arrived yesterday overland from California. Five Tribes have been authorized in Oregon Notice of a meeting at the Wigwam this evening appears in another place.

IN THE WIND.—The strong winds of the past few days have done very much to develop muscle in Portland, if we may be permitted to judge from the number of assault and battery cases being tried in the Police Court daily for some time past.

SUPPLIES.—The *Josie McNear* came up late on Monday night without loading, for the purpose of taking a lot of hay and other supplies to the Columbia river logging camps for the Cementville mills She returned as far as St Helens last evening

LOST.—A gold sleeve-button, lost on the street last evening, between this office and the Occidental hotel, via First street, will be thankfully received at this office The face of the button bears a pearl, set in a close star.

LOT SELECTED.—Mr. Wm. Gillihan yesterday presented the committee with lot 4, in block 316, for Mrs Depenning The lot is a valuable one, an outside lot, is graded and cleared.

LIVERY.—Mr S Cram, of the livery firm of Cram, Willis & Co, Oregon City, left here yesterday with two new carriages for that establishment

ECKFORD CLUB BENEFIT.—*A social and dancing party will be given at Oregon City to morrow evening for the benefit of the Eckford Base Ball Club.*

INFIRM.—A very infirm old lady arrived from Young's Landing yesterday, by the steamer *Senator* and embarked on board the *Ajax* for California.

TO SAIL.—The *Moses Taylor* will leave San Francisco to day for Portland

Shaking and Burning.

It is in the history of ... the tropics to Alaska ... experience the extremes of heat and cold Thousands ... all the inconveniences of this thermometrical change every day or every other day as the case may be with out the trouble of moving over the threshold *A week with these involuntary shakers!* What are they doing to expedite their return to a medium temperature? to break the chills and banish the fever? Are they dosing themselves with quinine thereby imperiling the soundness of their bones and impairing the vigor of their brains and nervous system? Some of them are no doubt but not the majority of them, it is believed The value of Hostetter's Stomach Bitters as a harmless and certain specific for fever and ague is understood and appreciated in all parts of the country where intermittents prevail The residents of such localities begin to take it early in the spring as a protection against the *miasma by which they are surrounded* ... of them perhaps for a blind adherence to error is the speciality of some people but the greater number

If there is any fixed fact in therapeutics it is this that the bitters are a *far better safeguard against all the varieties* of periodic maladies produced by unwholesome exhalations than any drug or compound in the materia medica of the profession This assertion is made with all due respect to the faculty, but being an important truth, and one that nearly concerns the health of large settlements in various parts of the country and indeed of the public at large, it is made fearlessly Founded on ample and unimpeachable testimony, it defies disproval

To break up chills and fevers, as well as to prevent them, there is nothing so reliable as this wholesome vegetable remedy

NEWSPAPERARCHIVE®

NEWSPAPERARCHIVE®

FINANCE AND COMMERCE.

PORTLAND, Tuesday, April 26, 1870.

Gold in New York to-day is quoted at 113¾—same figure as yesterday.

Legal Tenders are not quite so strong to-day, buyers being willing to give only 88½ in the morning, and this evening only 88 cents.

Business in nearly all lines is rather quiet to-day. All quotations as yesterday. The steamer *Ajax* sailed at 4 P. M. with scarcely one-third of her usual cargo of produce, taking only a little more than two hundred and fifty tons. This included about 600 boxes apples, 400 boxes eggs and the balance largely flour. Produce is coming forward now in but limited quantities, and it seems to be the prevailing opinion that, hereafter till harvest, the shipments to California will be lighter than for the corresponding period of any former season within the last three or four years. There is unquestionably yet a considerable wheat in the country; but the price of flour is too low to allow more than a very narrow margin for profit, and holders, knowing that the great bulk of the last crop has already gone forwards are disposed to take the risk of carrying what they have on hand over till after harvest.

The Dallas, Polk county *Republican* says the farmers in that part of the valley are improving the opportunities offered by the present fair weather to seed all the land possible before it becomes too dry to work. The breadth that will be sown this spring will not be less than in former years, and in some localities it will be greater.

This paper a few days since mentioned the fact that a Mr. Klintworth ... was here as the representative of a Chicago German Emigration Association, to make an inspection of the Pacific coast with a view to ascertaining the best ... locations for those who propose to find new homes on this side of the continent. We have since learned further that he will continue his inspection tour till some time in June and that he will then report to the home association and also give a detailed report to the *Gartenlaube*, a newspaper at Leipsic, Saxony, through whose columns it will receive a very extended circulation in Middle and North Germany.

There are about 800 families in the association represented by Mr. Klintworth—the advance guard of some thousand or more German families now waiting at Chicago and New York on the report of this gentleman. If the first are well served with lands and encouraged by success, the rest will speedily follow, and after this year we may expect a regularly increasing tide of this class of European immigrants. It costs, by a special arrangement made by Klintworth with the Pacific Railway Superintendents, but $40 per head from Omaha to San Francisco, by emigrant train. Children under five years of age come free; those between five and twelve years at half fare, with 100 pounds of baggage. The whole cost per head from Chicago to San Francisco—nearly 2,400 miles—will be but $50 currency, which is as cheap as the same class of cars carry between New York and Chicago; and we understand that these rates will be wisely retained in favor of immigrants. While in California, Mr. Klintworth declined all propositions to buy lands from monopolists at private sale. He had offers at low rates, and tempting personal offers to fall in with the schemes of some of the land-grabbers, but he refused them all, and has determined to buy only of the Government. If Government lands cannot be had in eligible parts of California, then he will be compelled to locate his first colonists in Oregon or Washington ...

HELMBOLD'S BUCHU.

H. T. HELMBOLD'S

CONCENTRATED

FLUID EXTRACT BUCHU.

The Great Diuretic.

THE PROPRIETOR TRUSTS THAT HIS REMEDIES from the fact of being advertised, may not be classed as patent medicines.

BUCHU in one form or other has been presented by every educated physician for more than

TWO HUNDRED YEARS.

H. T. HELMBOLD claims a superior mode of extracting its virtues. The experiments were made while engaged in the DRUG business in the city of Philadelphia 19 years ago, prompted by the alarming increase of diseases of the Bladder, Kidneys, Gravel and Urinary Organs existing in both sexes. These diseases were attracting as much attention as diseases of the liver or any other organ of the body. Upon the sound and healthy condition of these organs, the nervous system and liver were involved, and the happiness of the entire human family depended.

The BUCHU, acting favorably upon both Liver and Kidneys, to prepare it so it would retain its strength and active principle was his aim. It must not be made as hospital experts make tea, by boiling. It is a delicate Leaf, and its active principle would be destroyed by such a process. It must be prepared in VACUO, and of the lone leaf, fresh and carefully selected.

THE SUPERIORITY OF MY MODE OF PREPARATION IS ACKNOWLEDGED. I now ship to the point (CAPE OF GOOD HOPE) where the leaves are gathered large quantities of

Any Fluid Extract.

THE ARTICLE STANDS PRE-EMINENT, AND IS KNOWN IN ALL PARTS OF THE WORLD.

The first and most important object was to offer to the afflicted a remedy that was perfectly safe, and could be taken by adults children. Ignorant persons, who pay no attention to dose, direction or advice, who might reason, "That if a teaspoonful taken occasionally did good, two would do better, and perhaps a bottle would cure in a day."

Many have broken down their health by dissipation and on this principle, but they had been years in doing so.

What I would have understood is that no injury can arise from its use. It is as safe as any article of food, but patients must not expect any medicine to rebuild a wrecked or shattered constitution in a few days, and perhaps with a single bottle.

Notwithstanding the number of years I have been engaged in business, there may be those located at a distance that may not be aware of all the facts, and would like to be satisfied on all the points. Having been educated a druggist, I append the following:

From the Largest Manufacturing Chemist in the World.

"I am acquainted with Mr. H. T. Helmbold. He occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise.

WILLIAM WEIGHTMAN,

"Firm of Powers & Weightman,

"Manufacturing Chemists, Ninth and Browning Sts.,

"Philadelphia, Nov. 16, 1864."

I propose to give evidence that this remedy is not a Patent Medicine. The objection which generally lies against all discoveries and inventions in medicine is "*Publicity.*" If somebody should discover a remedy to prolong life, or an infallible cure for cholera or consumption, what a monster would he be to withhold his knowledge. We have yet to learn from what chapter or verse in Scripture to quote, "that men may not *heal others of their fellow men of any disease.*"

Nor have we asked *Pickwicks, Affected Prudes,* or in short, *men who are possessed of every kind of sense but common sense, and all kinds of opinions but their own.* The Buchu is a good thing—it has hundreds of thousands of living witnesses to attest its virtues and commend it. It is the prejudice of bigots and the envy of "QUACKS."

We offer the following evidence:

BUCHU.—Its odor is strong, diffusive and somewhat aromatic; its taste is bitterish, and analogous to that of mint. It is given chiefly in complaints of the urinary organs, such as gravel, chronic catarrh of the bladder, morbid irritation of the bladder and urethra, diseases of the prostate gland, and retention or the incontinence of urine, from a loss of tone in the parts concerned in its evacuation. It has also been recommended in dyspepsia, chronic rheumatism, cutaneous affections and dropsy.

Cure of Gravel of Five Years' Standing—Stone Passed and to be Seen.

SAVANNAH, Tenn., May 14, 1869.

Dr. H. T. HELMBOLD:—Dear Sir: We introduced your "Fluid Extract Buchu" in this country about eight months ago, and are happy to state that it is meeting with universal favor. We wish to inform you of one instance (among many) where your "Buchu" has worked wonders. A man in our county, named J. B. Estell, had been suffering about five years with gravel. About six weeks ago he bought of us one bottle of your "Buchu," and before he was through with one bottle he passed a gravel that weighs eight grains, which we now have on exhibition in our drug store. He says that he will never be without the "Buchu" in his house again. Your preparations are gaining favor every day.

Very respectfully yours, &c.,

Cure of Bladder and Kidney Affection of Long Standing—Stone Passed and to be Seen.

WESTPORT, Conn., Sept. 5, 1869.

H. T. HELMBOLD, Esq.: *Dear Sir*—I commenced taking your "Extract of Buchu" about two weeks since for an affection of the bladder and kidneys. I have suffered by spells very much for a few days past. But yesterday relief came through the effect of your "Buchu." A stone passed from my bladder about the size of a large pea, and I now feel perfectly well and entirely free from the pain that I have suffered with "so hard." I attribute my cure to your medicine entirely, and would recommend all persons similarly affected to try it. I have great faith in its curative powers.

Yours, truly, THOMAS J. BENNETT.

Cure of Kidney and Bladder Affection of a Patient Seventy-eight Years of Age.

THANKS TO MR. HELMBOLD.

GIRARD, Pa., March 31, 1869.

Editor Cosmopolite: I desire, as an unsolicited tribute to the merits of Helmbold's Buchu, and for the benefit of those similarly afflicted as myself, to say that after consulting many eminent physicians, and trying nearly all the best advertised remedies, in the vain hope of finding relief from aggravated kidney and bladder diseases, from which I have suffered excessively for many years, good fortune finally suggested to me Helmbold's Buchu, which I commenced using, with little faith and no apparent beneficial results, for about a month. At the expiration of that time, however, I thought I commenced to experience slight relief, which encouraged me to persevere in its use; and now, at the expiration of four months, although I am an infirm old man, nearly seventy eight years of age, and consequently medicines cannot be expected to favorably affect me as they otherwise would, I have found such unspeakable relief and permanent benefit from Mr. Helmbold's valuable discovery, that I feel I ought to publicly record the fact as an acknowledgment to him and a valuable suggestion to the public. Yours respectfully,

D. M. LAKEN.

DR. KEYSER,

A PHYSICIAN OF OVER THIRTY YEARS' EXPERIENCE, AND A GRADUATE OF THE JEFFERSON MEDICAL COLLEGE, AND OF THE UNIVERSITY OF MEDICINE AND SURGERY OF PHILADELPHIA

MR. H. T. HELMBOLD—DEAR SIR: In regard to the question asked me as to my opinion about Buchu, I should say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form of preparation of it I have not used, or known to be used, in the various diseases where such medicate agent would be indicated. You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired, in my judgment, is warranted by the facts.

I have seen and used, as before stated, every form of Buchu—the powdered leaves, fluid extracts—and I am not cognizant of any preparation of that plant at all equal to yours. Twelve years' experience ought, I think, to give me the right to judge of its merits; and, without prejudice or partiality, I give yours preference over all others.

I value your Buchu for its effect on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other Buchu, or any other proprietary compound of whatever name. Respectfully yours, &c.,

GEO. H. KEYSER, M. D.

A Case of Twenty Years' Standing.

PHILADELPHIA, Penn., June 25, 1867.

H. T. HELMBOLD, Druggist—DEAR SIR: I have been a sufferer for upward of twenty years with gravel, bladder and kidney affections, during which time I have used various medicinal preparations, and been under the treatment of the most eminent physicians, experiencing but little relief.

Having seen your preparations extensively advertised, I consulted my family physician in regard to using your Extract Buchu.

I did this because I had used all kinds of advertised remedies, and had found them worthless, and some quite injurious, in fact, I despaired of ever getting well, and determined to use no remedies hereafter unless I knew of the ingredients. It was this that prompted me to use your remedy. As you advertised that it was composed of buchu, cubebs and juniper berries, it occurred to me and my physician as an excellent combination, and, with his advice, after an examination of the article and consulting again with the druggist, I concluded to try it. I commenced to use it about eight months ago, at which time I was confined to my room.

From the first bottle I was astonished and gratified at the beneficial effect, and after using it three weeks was able to walk out. I felt much like writing to you a full statement of my case at the time, but thought my improvement might only be temporary, and therefore concluded to defer, and see if it would effect a perfect cure, knowing that it would be of greater value to you and more satisfactory.

I am now able to report that a cure is effected, after using the remedy for five months.

I have not used any now for three months, and feel as well in all respects as I ever did.

Your Buchu being devoid of any unpleasant taste and odor, a nice tonic and invigorator of the system, I do not mean to be without it whenever occasion may require its use in such affections.

RAHWAY, N. J., December 2, 1869.

H. T. HELMBOLD, Esq.—Dear Sir: I take great pleasure in sending you a certificate, in addition to the many you have received from suffering humanity. I can scarcely find language sufficiently strong to express my heartfelt gratification at the wonderful cure your "Buchu" has effected. For four years I have suffered beyond description. All my friends (with myself) came to the conclusion that my case was incurable. Accident placed your advertisement in my hands. I commenced taking your "Buchu." I followed directions, and to my utter astonishment before I had taken seven bottles of your valuable medicine (I would give $100 a bottle, if I could not get it at any other price) I am entirely cured. I most earnestly recommend it to all those suffering from disease. I have told many persons to take your valuable medicine, and they are doing so with great success. DR. H. T. HELMBOLD: Two bottles only of the package of your valuable Buchu presented to the Institute have been used by the children, and with perfect success. In the case of our little Lieutenant, A. J., his pride is no longer mortified, and he is free from the daily morning anathemas of the chambermaid who has charge of his bedding. I feel that a knowledge of the result of our use of your Buchu with the children under our charge may save many a Superintendent and Matron of Boarding Schools and Asylums a great amount of annoyance; and many a poor child, suffering more from weakness than from habit, may be spared punishment that is (not knowing it as a weakness instead of a bad habit) most unjustly inflicted upon them. MR. H. T. HELMBOLD—Dear Sir: Your communication requesting our terms for advertising was duly received, but from a prejudice I had formed against advertising "cures for secret diseases," it was left unanswered. During an accidental conversation in a drug store the other evening my mind was changed on the character of your Buchu. It was then highly commended for other diseases by two physicians present. Inclosed please find our rates of advertising. Yours &c.,

A Case of Inflammation of Kidneys and Gravel.

[From Morgan, Feazel & Co.]

GLASGOW, Missouri, February 5, 1868.

MR. H. T. HELMBOLD—*Dear Sir:* About two years ago I was troubled with both Inflammation of the Kidneys and Gravel, and I resorted to several remedies, without deriving any benefit whatever, and seeing your EXTRACT BUCHU advertised, I procured a few bottles, and used them. The result was a complete cure in a short time. I regard your EXTRACT BUCHU to be decidedly the best remedy extant for any and all diseases of the Kidneys, and I am quite confident it will do all you claim for it. You may publish this if you desire to do so. Yours respectfully,

EDWIN M. FEAZEL.

Cure of Nervous Prostration and Decline of a Young Lady.

H. T. HELMBOLD: I have been giving your Extract Buchu to my daughter, who has been unable to sleep; very nervous, loss of appetite, general debility and rapid falling into decline. In fact, consumption was talked of. I was recommended to use your BUCHU by a highly respectable lady of this place, who had given it to her son with complete success. My daughter has been troubled for a long time. I purchased one bottle some eight weeks since, which lasted one week, and from which she received great benefit, and induced me to purchase one half dozen bottles, as I had tried many other remedies, and my family physician, to no avail. It is now more than two weeks since she has taken the last bottle, and I am happy to inform you of its complete success. Very truly yours,
